

Technology that supports your mission.

Cortavo helps nonprofits protect donor data, modernize technology and support staff working in the office and in the field.

Productivity

Starting at

\$155

per user / month

Managed IT, support and security for your existing devices.

Connectivity

Starting at

\$205

per user / month

Everything in Productivity, plus onsite support, networking and cloud.

Techtility

Starting at

\$275

per user / month

Everything in Connectivity, plus business-grade hardware and lifecycle care.

Five-user minimum. Prices shown are base subscriptions. Optional upgrades, separately agreed charges and applicable taxes are outside these prices.

Support your people

Remote support, Microsoft 365 or Google Workspace licenses, onboarding and offboarding, a dedicated account manager, vendor management and quarterly technology reviews are included in every plan.

Protect your work

Every plan includes endpoint and email protection, identity and access management, a password vault, endpoint and application backup, basic security awareness training, and dark-web monitoring.

Help desk hours

U.S.-based help desk, available 24/7.

Onsite support by plan

Optional upgrade with Productivity. Unlimited onsite support included with Connectivity and Techtility.

Build the right plan for your nonprofit

Choose Connectivity for managed internet, network and cloud services. Choose Techtility when you also need business-grade devices, hardware support and lifecycle management.
